

# 100-BSC

## PRO-PLUS®

### Male To Male Support Bracket 100C

#### Specification

Josam 100-BSC male to male support bracket for PRO-PLUS® 100C 4" internal width trench channels. Made with PVC material to support two male end connections for trench runs with center outlet configurations. Includes two screws to secure to bottom of one channel.

This bracket only joins a male channel end to a male channel end. Use a 100-BS nearby to provide support for the joint.

Josam product specifications in U.S. customary units are approximate and provided for reference only. For precise measurements, please contact Josam Technical Support. Josam reserves the right to change or modify product design, construction, specifications, or materials without prior notice and without incurring any obligation to make such changes and modifications on Josam products previously or subsequently sold.
